

NEXT BOOM IS TO BE SOUTH OF CARSON

CHAS. SOUTHWORTH RETURNS FROM STATE LINE CAMPS AND PREDICTS GREAT THINGS IN NEAR FUTURE

Charley Southworth, one of the successful young men from the Bullfrog country, spent yesterday in this city. He has been looking over the section south of this city. He realizes that there are mines, and big ones, in Western Nevada and is taking a whirl at the game in this end of the state. He is loaded up with several sheets of most flattering assays, and some of them would be sensational had they been taken from any of the mines in the gold section near the desert, but they seem too near home to attract proper interest.

He visited Masonic, Buckskin, Sunny Jim, and other points within 50 miles of Carson, with the idea of fastening onto something good for people he represents. In speaking of the new districts he said:

"There is a great big mineral section south of this city. There is any mineral you ask for, and some of the assays are astonishing. In Masonic the Pittsburg claim is a wonder. It is not as high grade as is found in Bullfrog, but there is a vast quantity of ore which constitutes a mine and a big one. Masonic, as soon as the weather clears and lets the prospectors from the deserts in, will be alive with men. That section can't be kept down. At the Golden Gate there is a big showing and something will be doing there before the summer is over."

"The new strike at Buckskin will result in development that will turn out mines. Even the old Mountain House section and Red Canyon will be pawed over by the new methods adopted by the desert prospectors. They are following the float that has been found for years and they will find its source."

"I am going to return to Bullfrog but will be back in this section, as I can see what is ahead and that there is to be a rush this way. It can't be kept back as the high grade ore is here and that is what takes the public eye and cash."

WOMEN AS STOCK GAMBLERS

TONOPAH, June 1.—The mining stock gambling fever has taken a strong hold on the women of late, and numerically they are showing up stronger on the exchange every day.

Their shrewdness is proven by the fact that several of them have increased their bank accounts by several thousand dollars in the interest few months. They take the greatest in all matters pertaining to stocks and not only are they around the stock brokers, but they consult with the miners who work in the various stock properties to ascertain from them facts concerning the ore bodies size of veins, ledges, etc.

And they get these facts, too, when men would fail to get them, for they insinuate themselves into the good graces of the men who are posted and on the inside of all matters pertaining to the mines. They have money, too, and are not slow to invest it in anything that looks good.

LOS ANGELES, June 1.—A special to the Times from Calexico, a small town situated just north of the Mexican border, in San Diego county in Imperial valley, says that the district is experiencing a flood which may lay the town waste.

Calexico is situated on the New river, which has been raising and falling with the waters of the Colorado.

TELEGRAPHIC

MADRID, June 1.—A bomb was thrown at King Alfonso, Thursday afternoon when the royal carriage was in front of the palace.

Over a dozen people that surrounded the carriage were killed, but the king and his royal mate were unharmed.

When the bomb was thrown, it struck a telegraphic wire in its flight and was deflected just enough to throw it down in front of the carriage where it exploded. The great procession was thrown into confusion, and after a guard had been formed, the royal couple entered the palace where the Queen fainted.

The bomb, by a singular chance, was thrown from the third story window of a house owned by the queen mother. One Moral, of Barcelona, was captured as he attempted to flee from the place, and it is believed that he and one other, who escaped, were the persons that attempted to kill the king. The bomb was concealed in a bouquet of flowers and was of steel construction, known as "Barcelona Pear."

A revised list of the dead, places the number at 17, including three officers of the king's guard, two ladies in waiting, three children one groom, two pedestrians and six soldiers. The attempted assassination has thrown a pall over the wedding festivities. Condolences have been received from the foreign ministers at Madrid, and the king replied to all in a gay voice. It was said after the levee to the ministers that the youthful king was the nerviest man in the assemblage.

WASHINGTON, June 1.—Gen. Greely reports that he is arranging to withdraw troops from San Francisco as fast as possible.

BUDAPEST, Hungary, June 1.—William A. Bryan was present during the delivery of President Wekerles speech before parliament.

TIFLIS, Caucasia, June 1.—The murderers of Wm. H. Stuart, American vice consul at Batoum have been captured. Stuart was killed May 20 as the result of a conspiracy, since confessed.

NEW YORK, June 1.—Joseph Choate, ex-minister to England is very ill. Information as to his condition is denied at the home.

MINNEAPOLIS, June 1.—The executive council of the National Congress of Mothers, has adopted a resolution denouncing Reed Smoot and asking that congress be given power through a constitutional amendment to deal with polygamy.

BOISE, Idaho, June.—When the miners cases were called in court Thursday afternoon, the state asked for a continuance. Attorneys for Moyer, Pettibone and Heywood agreed thereto. The cases were passed and will probably come up in the regular June term.

ESSEN, Prussia June, 1.—Bertha Krupp, daughter and heiress to the Krupp fortune is engaged to marry Baron von Bohlens und Halbach, secretary of the Prussian legation at the Vatican. She is said to be the richest heiress in the world.

CALIFORNIA LEGISLATURE TO MEET NEXT SATURDAY

OAKLAND, June 1.—Governor Pardee has announced his intention to call a special session of the Legislature to meet in Sacramento next Saturday at noon. He has been waiting for the report of the sub-committee of forty, which has just been issued. Only those subjects relating to cities damaged by earthquake and fire will be included in the call.

The vacancy caused by the absence of Miss Sweeney was filled by the appointment of Miss Redd Calkins for the unexpired term of one month.

MACKAY GIVES \$50000 FOR N. S. U.

DONATIONS TO UNIVERSITY SUM UP TO \$53,000. H. C. CUTTING GIVES \$10,000, AS DOES F. M. SMITH

RENO, June 1.—Clarence Mackay, son of John W. Mackay has announced through President Stubbs of the university that he and his mother will give \$50,000 toward the construction of a new building to be devoted to the uses of the school of mines.

The announcement was made with those of other gifts, notably that of H. C. Cutting, \$10,000, and F. M. Smith, of San Francisco, \$10,000.

That of Cutting is to the library building fund, and of Smith to the scholarships. Smith announcing that this donation is not the last he will make. Several smaller gifts were announced.

The donation of Clarence Mackay, following his donation of \$25,000 for a statue to be placed in the new state library makes his total gifts to educational purposes \$75,000 this year. The total amount announced by President Stubbs, was \$53,000. In addition to this sum, President Stubbs announced legacies to the amount of \$25,000 that will come to the university later.

A YEARS PROGRESS SOUTH

A year ago this month the "Salt Lake Route," or, more strictly speaking, the San Pedro, Los Angeles and Salt Lake Road, completed its line between Salt Lake and Los Angeles, and already it has proven a great blessing and benefit to the immense area of country that it has brought into touch with the outside world, and the volume of business transacted by this new road has been much in excess of the most sanguine expectations of its promoters, says the Salt Lake Mining Review. As a cut-off from Salt Lake to Los Angeles it has had a wonderful passenger traffic, and its business in the freight carrying line has been most satisfactory in every respect. As a matter of fact, every officer of the company is well pleased with the business for the first year, but the most gratifying feature of the building and operation of the road has been the decided stimulus it has given to numerous mining camps and districts along its route, and these are forging to the front in a manner that is astonishing to those who are acquainted with the conditions under which they formerly labored. In Lincoln county, Nevada, especially are to be seen the beneficial results of convenience and speedy transportation. In this locality there has been a resurrection of old camps that is truly marvelous to behold, while many new ones have come into existence since it has been made possible to advantageously operate in sections along the line or contiguous thereto.

SENATOR CLARK WILK BUILD TO TONOPAH

SALT LAKE, June 1.—J. Ross Clark president of the Las Vegas and Tonopah Railroad company, before leaving for Butte, made the announcement that he had received instructions from his brother, Senator W. A. Clark, to proceed at once with the final surveys and construction of the Las Vegas and Tonopah road from Bullfrog to Goldfield and Tonopah.

Mr. Clark said that these instructions would be carried out to the letter and that the surveys would be extended at once from Bullfrog to Goldfield and Tonopah and that this would be followed up by the grading and actual construction of the road as soon as material for that purpose could be assembled.

TO RACE

SALT LAKE, June 1.—Vice President Bancroft and Gen. Supt. Buckingham, of the Oregon Short Line, left yesterday for the western part of Nevada, where they will go over the route of a proposed line from Wadsworth to Yerington, in Mason Valley. The announcement of plans of the V. & T. railroad company to extend the new construction of this road in Mason Valley has aroused the activity of the trunk line people, and it probably will be a race to see who tips that rich country first.

The statement given to the Appeal by a high official of the V. & T. was the first official announcement of plans in this direction, and it caused no end of activity in railroad circles.

The Appeal Changes Hands

With this issue, The Appeal changes as to management and appearance.

To patrons the new management promises prompt service and careful consideration.

To friends the same consideration to which friends are entitled in all walks of life.

The Appeal starts today with a clean slate and its future conduct must be the only measure applied to it.

If it does not suit, write to the editor about it. The more you write the better the Appeal will like it. Every communication, no matter on what subject, will be acknowledged. The same with other business. The Appeal may have. All will be given prompt attention.

Some improvements are under way and will be installed as fast as possible. When these are completed, the Appeal will be second to none in the State in appearance and service to the public.

Espeaking the good will of our patrons we will endeavor so to act that none can carp, though many may criticize.

If you want the news promptly you must take The Appeal.

As The Appeal is the only evening paper in the field, an effort shall be made to give Today's News The Day It Happens.

THE DAILY APPEAL

BLAIR MINE SOLD

SALT LAKE CITY, June 1.—To sell a mine for \$750,000 cash, organize a company, perfect a consolidation with adjoining mines, see \$700,000 cash placed in the new company's treasury, arrange for a campaign of operations larger than had ever been attempted in the state since its revival, and push out into the field again, all within thirty days, is something not done every day in the mining world. That, however, is just what Martin L. Effinger, the well known mining man, has accomplished since he left here for Pittsburgh and New York one month ago.

Mr. Effinger held an option upon the famous Blair gold mines at Silver Peak, Nev., and interested eastern capital in the properties leaving here to complete the deal. He returned from New York with everything closed up and will leave for Nevada with a corps of competent engineers to inaugurate the campaign which the powerful company organized by him has decided to carry through with the utmost dispatch.

The board of school trustees met last night and transacted regular business.

HE HAS NOT RESIGNED

UNCERTAINTY AS TO THE ACTION OF NEW SCHOOL TRUSTEE CAUSES DISCUSSION

Interest in the action of the new school board is keen and discussion is being indulged in as to the probabilities.

The remaining old member, Mr. Meder has not resigned. Statements to the effect that he will resign could not be confirmed Friday, as Mr. Meder said he had the matter under advisement and that he has taken no action yet.

It is stated that the new school board must convene for business before or on June 10 and it is possible that the new members will do so in order to make assignments for the coming year.

As regards the resignation of Prof. Howe, also rumored to have been decided upon, it is learned that his appointment runs to December 31, and any resignation or request for resignation will be subject to that time, in absence of an agreement between the incumbent of the superintendent's office and the trustees.

As a matter of fact, none of the gentlemen concerned know just where they are at yet, and will get together soon to find out.

DEMOCRATS GET READY FOR THE CAMPAIGN

CONGRESSIONAL COMMITTEE MEETS IN WASHINGTON

WASHINGTON, June 1.—The campaign committee of the Democratic National Congressional Committee and a sub-committee met here last night in the rooms of the Congressional committee with the exception of two were present. After the conference which lasted for nearly three hours and which was for the purpose of talking over plans for the coming campaign it was announced that the utmost harmony prevailed between the two bodies.

After the meeting of the campaign committee of the Democratic Congressional committee the following statement was issued:

"A sub-committee from the National Democratic Committee which it was determined to appoint as long ago as last February met and organized in this city. Members of this sub-committee were directed to, and did meet with the campaign committee of the Congressional committee tonight. A perfect understanding was reached and there is perfect harmony between these two bodies. Each will work in its own field and the national committee will assist the Congressional committee whenever and wherever the latter may desire."

STRIKE RESUMED

A difference of \$5 per month in the price of board is at present causing the loss of many dollars to both employees and mine-owners in the Silver Peak District, and putting some of those in business to guessing as to the final outcome. The miners recently struck for \$4 per day, which was granted, the company at the same time raising the price of board \$10 per month. The strike has been renewed.

NEW YORK, June 1.—Mrs. Robert Edeson, wife of Robert Edeson, an actor and known to the stage as Ellen Berg, died tonight at the French Hospital. She played in "What Happened to Jones," "Children of the Ghetto," "Soldiers of Fyn," and other productions.

RENO, June 1. Henry V. Moorehouse, a prominent San Francisco attorney, will go to Bullfrog within the next ten days, where he will form a law partnership with William M. Stewart, former senator from Nevada.

SHORT ONES

Sparks is to have a new Athletic Club.

Leasers have struck it rich in the old Palmetto district in a shaft of the Golden Gate claim of the Palmetto & Death Valley Company.

It is reported that C. M. Schwab, has bought the Ramsey and Emigrant Springs properties of 24 claims. The payment made is said to have been \$100,000.

Congressman Van Duzer, has been found. The Goldfield Sun says that he was in that city Wednesday as a refugee from San Francisco.

Fred H. Keegan, a mining man of this state, is reported as missing in San Francisco. He arrived in that city from the south with a large sum of money and his sister has asked the police to help her find him. Foul play is feared.

Rates to the Elks convention at Denver, have been fixed at \$47.50 from Nevada points to Denver and return. This is the first time in history that special rates for Nevada people to eastern points have been less than rates from California to the same points.

There was a feast of reason and a flow of soul at Reno last night when 200 guests sat down to a dinner given by the university faculty to the governor and invited guests. Lawyers and other told each other how to behave and the gabfest lasted a long time.

The house committee on elections has reported favorably on the Gaines publicity bill. The measure provides for publishing all party expenses pertaining to the candidacy of the president, vice president and delegates to congress. All receipts and disbursements handled by party committees or "personal committees" must be certified to by the clerk of a United States district court, thus forming a public record.

BETRAYED GIRL SHOTS AT SENATOR

SHE GOT TIRED OF THE LAW'S DELAYS AND WENT OUT AFTER HIM HERSELF

OAKLAND, Cal., June 1.—Miss Isabella Davis, the pretty stenographer who charged state senator M. W. Simpson with a felony, went to the city hall at Alameda Thursday and tried to shoot Simpson. She has been arrested and has made the following statement:

"The only regret I have is that I missed him. If I had not been so close I surely would have hit him. I intended emptying the five shots into him. Some months ago he threatened to kill himself and me. I guess I am not to blame."

Miss Davis, first attracted attention early last February, when she went with her mother to City Attorney Simpson's office and demanded that he make good a promise of marriage she claimed he had made her. Failing to get any satisfaction at that time, she appealed to District Attorney J. J. Allen three times in quest of a warrant for Simpson's arrest but the matter was finally passed up to the grand jury and during the same month Simpson was indicted.

GOVERNMENT TO BUILD MILES OF LATERAL CANALS

The irrigation engineers in charge of the Truckee-Carson project say that early in June the Government will begin on its own account, the construction of 148 miles of laterals in what is known as irrigation district No. 3, the single bid that was filed for the contract having been rejected.
